GREENBLOCK
CAPITAL

Your efficient and sustainable mining token.

Greenblock-capital.io

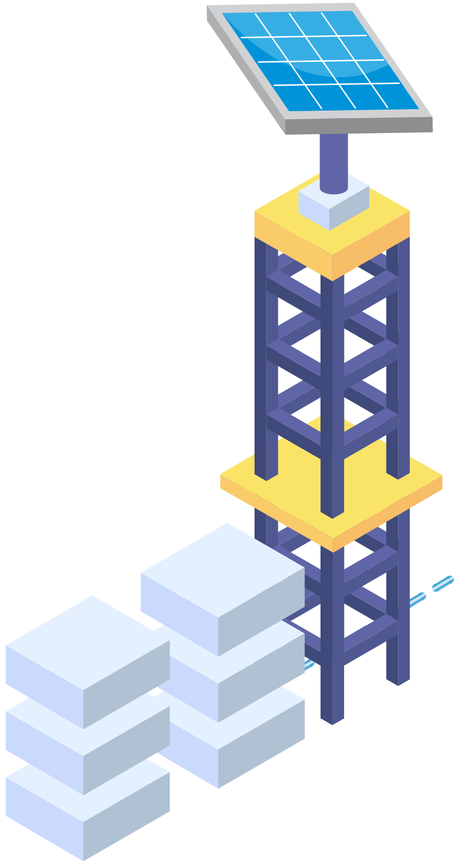
Access the mining business with clean energy and the best efficiency, thanks to the reduced costs of electricity and accommodation.

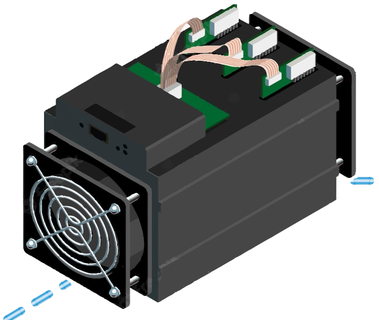
With the GBC token you will receive the rewards of the miners (ASIC L7 MOD 905, currently) without worrying about power, accommodation, maintenance or any other form of expenses of any kind.

Receive your mining rewards in Bitcoin directly to your wallet once a week on the BSC network.

HOW WE MINE IN GREENBLOCK CAPITAL

clean energy, low cost and high efficiency





high equipment performance
(ASIC L7 MOD 905)

mined from the tokens with higher cost effectiveness

weekly conversion to BTC and delivery to staked GBC holders.

GBC TOKEN – PERFORMANCE

The tokenomics is designed for increased profitability over time, holding a token that is liquid and scalable.

¿HOW?

Implementing a sales tax of 10% for the token. We would use this tax to buy more mining equipment and keep the equipment always up to date, with the most efficient machines.

The profitability of our business model will be totally sustainable, you would be able to withdraw your GBC from the stake and sell the token once you have obtained the expected return on investment.

Tokenomics

Launching Monday January 28th on pinksale.

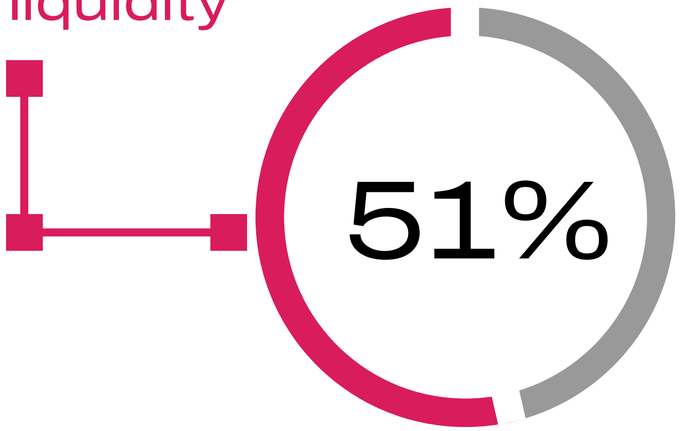
Whitelist

Soft cap 400 BNB
Hard cap 800 BNB

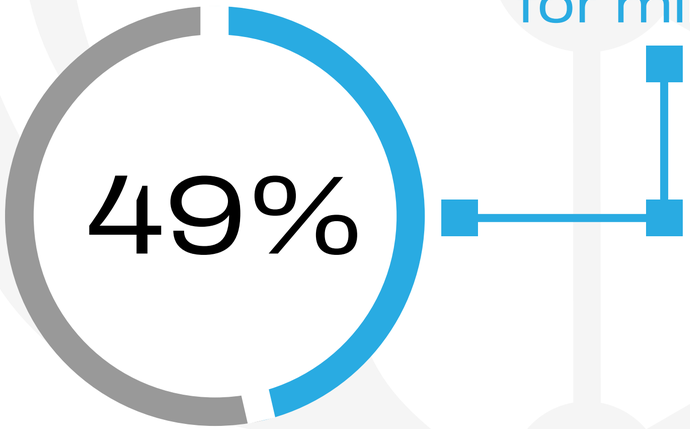
BUY TAX 0%

SELL TAX 10%

token liquidity



purchase of equipment for mining



All investors who access the pre-sale will be able to benefit from a 10% discount with respect to the listing price and also from our bonus pool funds.

WHAT IS THE BONUS POOL? AND HOW DOES IT WORKS?

As a bonus for participating in our pre-sale, we have an **extra bonus** for you.

This is to us the best way to guarantee the pre-sale buyer an advantage and also to help make the token graph as healthy as possible.

By keeping your tokens purchased in pre-sale for 30 days you will receive:

Up to 400 BNB

Each buyer will receive **5%** extra GBC tokens in their wallets after holding for 30 days

Between 400 y 600 BNB

Each buyer will receive **10%** extra GBC tokens in their wallets after holding for 30 days

Between 600 y 800 BNB

Each buyer will receive **15%** extra GBC tokens in their wallets after holding for 30 days

As you can see, the higher the funds generated at pre-sale, the higher the bonus for the holders.
